MEDICAL WELLNESS

AESTHETIC DERMATOLOGY

- WRINKLE TREATMENT** CHF 400
Deeper wrinkles can be effectively prevented in the facial region with hyaluronic acid and collagen. The natural and biodegradable substances are injected directly under the skin folds.
- BOTOX (BOTOLINUMTOXINE)** CHF 400
The treatment can be accurately and reliably used wherever undesired facial wrinkles appear. The skin is visibly smoothed and contributes to a younger and fresher look.
- LIP CORRECTION/LIP ENHANCEMENT** CHF 400
In addition to structure the side seam and the abolition of the crease lines in this area, the lips can be built to a sensual and luscious pout. Also, the perioral skin wrinkles around the lip (smokers lines) can be individually molded and padded.
- MESOTHERAPY** CHF 200
Meso-Lift or Mesotherapy is an optimized moisture treatment for the skin where drugs are directly injected into the site of action. The result is an enormous skin rejuvenation.
- BEAUTY ACUPUNCTURE** CHF 350
The beauty of acupuncture is a treatment method where needles are set into specific body and auricular points. A form of therapy that leads to continued well-being and attractive appearance.
- GALA LIFTING** CHF 300
Whether it is for personal or professional reason, with the gala lifting a radiant complexion is guaranteed. In this particular type of acupuncture an immediately noticeable lifting effect is achieved right after the treatment.
- PEELING** CHF 280
With fruit acids and TCA. Trichloroacetic (TCA) peels are a type of chemical peel used as a cosmetic or dermatological procedure to treat small skin impurities and wrinkles.
- LIFTING WITHOUT A SCALPEL** CHF 1 000
The „Portrait“ treatment of Rhytec is an absolutely new, safe, non-surgical method of skin tightening and wrinkle reduction. It allows the plasma energy to rejuvenate wrinkled skin in a natural way.
- FAT-AWAY TREATMENT** CHF 800
By applying low-frequency ultrasound in the so called problem zones, fatty tissues are brought to remelt painless and non-invasive. Cellulite is significantly improved.

ANTI-AGING MEDICINE

DIAGNOSIS AND GENETIC TESTING

The Medical Wellness Center procedures are used for early diagnosis, which can compute the risk. We measure loss of function, age-related risks, aging, and nutritional deficiencies already at the level of cell structure, cell metabolism and genes before they are visible for the normal check-up medicine.

PREVENTIVE MEDICINE AND GENETIC TESTING

ANDROSENSOR 40PLUS	CHF 1 800
